

Big choice.

Our largest MQ-Mikasa reversible plate has long been the contractors' choice for maximum performance.

It's now available with an electric/recoil start Honda GX390 gas engine and cyclonic filtration system.

The MVH508GH can be fitted with the optional COMPAS system to monitor real time compaction progress.

MVH508GH

Model	Plate Size WxL in. (mm)	Size with Extensions WxL in. (mm)	Centrifugal Force lb. (kN)	Exciter Speed VPM	Max. Fwd. Speed ft./min. (m/min)	Engine Model	Fuel Type	Start Method	HP Rating BHP (kw)	Operating Weight lb. (kg)	COMPAS System (optional)
