Equipment Guide

Construction, power
and lighting

Compaction Equipment

Rammers	4
Plate Compactors	5-6
Rollers: Walk-Behind Single, Tandem Drum, Trench & Ride-On Tandem Drum	7-8

Generators, Air Compressors and Welders

Generators: 2.5kW to 9.7kW	9
Generators: 6kW to 1,000kW	10-13
Air Compressors	13
Welders	14

Trailers

Heavy-Duty Trailers	15
---------------------------	----

Lighting Solutions

GloBug Balloon Lights, GloBug 4-Spot Light Towers & Powered Carts	16-18
--	-------

Dewatering Equipment

Pumps: Submersible	19
Pumps: Centrifugal	20
Pumps: Trash and Diaphragm	21-23
Pumps: Accessories	24
Water Trailers	25

Concrete-Masonry Technologies Equipment

Pumps: Concrete/Masonry	26
Mixers: Concrete/Towable	27
Mixers: Concrete, Mudtubs, Plaster/Mortar	28-30
Rebar Benders & Cutters	31
Power Buggies	32-33
Concrete Vibrators: MGX and Flex-Shaft	34
Concrete Vibrators: High-Cycle	35
Screeds: DuoScreed & Truss Screed	36-37
Trowels: Walk-Behind INSTACLUTCH™, Heavy-Duty & Standard ...	38-39
Trowels: Ride-On Mechanical and Hydraulic	39-40
Chemical Sprayers	41
Concrete Solutions	42-43
Concrete Solutions: Alpha Concrete & Mortar Dissolver	44
Masonry: Diamond Blades, Cup Wheels, Grinding Discs, Diamond Core Bits	45

Ordering Information	51
-----------------------------------	-----------

The standard in high-quality equipment solutions.

In business for four decades, Multiquip is one of the largest, most diversified manufacturers and suppliers of world class quality products and solutions for the construction, industrial, telecom, government, non-commercial, aerospace, entertainment, and oil and gas exploration markets.

Multiquip's comprehensive product portfolio encompasses light to medium construction equipment, power generators and lighting. Servicing customers worldwide, Multiquip distributes its products in more than 70 countries through thousands of authorized distribution partners.

MIKASA RAMMERS

Features

- 4 cycle engines available from Honda
- Optional shoe sizes and extensions available
- Cyclone air filtration system on MTX series
- Cam-type clutch
- Grease- and oil-bath-lubricated models

Technical specifications

MODEL	IMPACT FORCE LBS (KN)	BLOWS MIN MAX.	ENGINE MAKE MODEL	HP (KW) ¹	SHOE SIZE WIDTH IN (MM)	OPER. WEIGHT LBS (KG)

¹ See page 50 for details.

MTX SERIES RAMMERS

4 Cycle Engines

Honda offerings to meet operator expectations of reliability and easy starts.

MTX-series rammers feature an anti-vibration handle that significantly reduces operator fatigue.

Throttle design enables contractor to control engine speed and fuel delivery with a single lever.

Combination tachometer and engine hour meter provides engine RPM and helps track service intervals.

MIKASA FORWARD PLATE COMPACTORS

Features

- Hour/tachometer standard on MVC88 series
- Cyclonic pre-cleaner on select models
- Removable water tank on select models
- Low-vibration handles on selected models
- Cogged belt drive on MVC88 series
- Open base plate design

Technical specifications

* Wheel kit attachment optional.

† Urethane pad attachment optional.

¹ See page 50 for details.

MIKASA PAVER PLATE COMPACTORS

Features

- Hard rubber rollers protect pavers from scratching, chipping, breaking and dragging
- Great for narrow areas and compaction alongside walls
- Toolless foldable handle allows for quick and easy loading into vans and trucks
- Rollers allow for easy pull back to compact on the spot
- Greatly improves productivity compared to standard plate compactors

Technical specifications

MIKASA REVERSIBLE PLATE COMPACTORS

Features

- High-horsepower gasoline and diesel engines
- Selected models include hour/tachometer
- Selected models include cyclone pre-cleaner
- Selected models include extension plates as standard
- Hydraulic forward and reverse
- Adjustable handle height
- Compas Technology-Optional Compaction Analyzing System on select models

*** Wheel kit attachment optional.

† Optional Compas Electric Start Models Only.

^ Electric start models do not include batteries.

¹ See page 50 for details.

COMPAS TECHNOLOGY

Compas Advantage Removes Guesswork

An easy to read LED panel turns on to guide the operator as soil stiffness increases.

Compas Benefit Saves Time & Money

Continuous monitoring of soil stiffness guides operator to avoid unnecessary passes and over-compaction.

WALK-BEHIND SINGLE-DRUM ROLLERS

Features

- Maintenance free vibratory assembly
- Elongated steering handle
- Plastic water tank
- Three water flow adjustment settings
- Hour/Tachometer
- 29" wide steel drum
- Adjustable transport hooks
- Hydrostatic drive system

Technical specifications

Electric start models do not include battery.

¹ See page 50 for details.

RAMMAX ARTICULATING TRENCH ROLLERS

Features

- Articulating roller with flexible drum options for 24" and 33" working widths including removable drum rings
- Durable articulation joint requires no greasing
- Oscillating joint keeps drum rolls in contact with soil for optimum compaction
- Yanmar engine delivers reliable starting and performance
- Infrared remote charges using solar power and automatically synchronizes with the roller
- Front and rear covers provide easy access to all maintenance points

Technical specifications

MODEL	ROLLER DRUM WIDTH IN (MM)	CENTRIFUGAL FORCE LBS (KN)	ENGINE	HP (KW) ¹	OPER. WEIGHT LBS (KG)	REMOVABLE DRUM RINGS

RIDE-ON TANDEM DRUM ROLLERS

AR14H Features

- Compact design
- Articulated steering
- Maintenance free articulation joint and vibratory assembly
- Integrated hour/tachometer
- 12V power outlet and cup holder on cockpit
- Easy access to service points
- 35 gallon water tank

Technical specifications

MQ POWER PORTABLE GENERATORS

Features

- Sizes ranging from 2,500 to 9,700 watts
- Two-year warranty
- Voltage regulation maintained within $\pm 3\%$
- Brushless design minimizes maintenance
- Idle control on GA 36, GA 6, GA 97 and DA 7000SSA3 models
- Optional wheel kits available for GA 25, GA 97, DA 7000SSA3 models
- All receptacles GFCI protected (USA only)

MQ POWER WHISPERWATT

Features

- Ideal for portable, standby and special events
- Highway-legal trailers and auxiliary fuel tanks available
- Patented Open-Delta generator offers "best in class" motor starting
- Excellent voltage and frequency regulation
- Designed for low-noise operation - surpasses OSHA standards
- Full engine and generator instrumentation
- Equipped with Tier 4 engines

Optional trailer

DEF REPLENISHMENT SYSTEM

Features

- High capacity tank holds up to 100 gallons (379 l) of DEF
- Compact design simplifies transport and placement on site
- CAN bus DEF level monitoring for any Tier 4 Final diesel engine
- Application Flexibility – automatically maintains DEF level on one or two engines simultaneously, unattended*
- Extends engine runtime and reduces the frequency of costly refilling
- Automatically purges supply lines to ensure that DEF quality is maintained after each replenishment cycle

Technical specifications

MQ POWER NATURAL GAS

Features

- Ideal for oil and gas fields
- Basler DGC2020 microprocessor
- Quiet operation – both models benefit from a sound attenuated, weather resistant housing reduced noise to 69 db @ 23' (Full Load)
- EPA Emission certified
- Containment for all engine fluids

MQ POWER AIR COMPRESSOR

Features

- Models available in 95 & 185 CFM
- Quiet operation - sound attenuated, weather resistant housing reduced noise to as low as 69 db @ 23' (Full Load)
- Easy access to engine and air compressor through large lockable gull wing side doors
- Easy maintenance with external drains

MQ POWER ENGINE POWERED WELDERS

Features

- The industry's most versatile line of welder / generators
- Simultaneous use of DC Welding and AC power output on selected models
- CC/CV welding output on 225 Amp and larger models
- Dual welding capability on DLW330X2 and DLW400ESA4 for maximum productivity
- Smart stick functions on DLW330X2 and DLW400ESA4. Automatically starts/stops engine for optimal fuel conservation.
- Selected models feature E-mode to reduce fuel consumption and noise levels
- Optional remote available on selected models (225-500)
- AC receptacles GFCI protected

Optional trailer

** Not currently available for sale or use in Canada.

† Optional battery available.

MQ POWER HEAVY-DUTY TRAILERS

Features

- Heavy-duty welded steel frame construction
- Powder coat paint process including frame, channel, actuator and fenders (excluding TRLR600XFBP3E)
- D.O.T. approved tail lamps, stop lamps, turn signal lamps and side marker lamps
- Surge hydraulic or electric-actuated drum brakes (all axles) on select models

GLOBUG BALLOON LIGHTS

Features

- Operates on 120V AC Power
- 360° illumination
- Glare-free lighting
- Internal electric ballast
- Weather resistant balloon material
- Metal Halide and LED lamp options
- Easy set-up and transportation
- Industrially designed stand and cart options

Optional generator

* Generator not included with cart models.

** LAMP ASM. ONLY - indicates a complete balloon lamp assembly (less mast, stand or cart).

*** Designed to attach to selected trailer mounted mobile light towers.

GLOBUG 4-SPOT LIGHT TOWERS

Features

- Ultimate compact cart design
- Metal Halide (MH) and LED lamp models
- 3-Stage mast (MH) and 4-stage mast LED
- Operates from 120V house or generator power
- MH mast raises to 13.7' - LED mast to 17.1'

GLOBUG POWERED CARTS

Features

- 1.6KW Inverter Generator
- Powerful 4 cycle, 3.5 HP (2.6kW) gasoline engine EPA/CARB Certified
- 3 Gallon fuel tank – over 18 HRS run time
- ECO mode for fuel conservation & noise abatement - 63 dB(A)
- 120V 13.3A external DUPLEX receptacle
- Lamps made of rugged aluminum/poly-carbonate materials
- Rugged, anodized steel cart with mechanical brake, and adjustable handle
- (3) piece anodized aluminum air-assist mast
- Overall compact design: 32" X 22" footprint

GLOBUG LIGHT TOWERS

GBX12SK Features

- Trusted Kubota liquid-cooled diesel engine – EPA/CARB compliant
- High efficiency LED lamps produce bright, clear 168,000 lumen projection lighting
- LED longevity and safety – lamps provide 40,000 hours of operational life and allow for immediate strike/re-strike lamp capability
- Aerospace mast design – anodized aluminum 5-section vertical telescopic mast assembly provides superior strength and corrosion resistance
- Industrial trailer assembly – rugged, compact design meets all DOT/NHSTA trailer and cabinet requirements

GBX24BK Features

- Trusted Kubota liquid-cooled diesel engine – EPA/CARB compliant
- High efficiency LED lamps produce bright, clear 399,000 lumen diffused lighting
- LED longevity and safety – lamps provide 40,000 hours of operational life and allow for immediate strike/re-strike lamp capability
- Aerospace mast design – anodized aluminum 5-section vertical telescopic mast assembly provides superior strength and corrosion resistance
- Industrial trailer assembly – rugged, compact design meets all DOT/NHSTA trailer and cabinet requirements

SUBMERSIBLE CLEAN WATER PUMPS

Features

- 1.25" to 6" diameter discharge
- Selected models UL and CUL listed
- Compact and streamlined design with thermal overload protection
- Single-phase and three-phase motors available
- Double oil-filled seal provides positive lubrication (selected models)

Technical specifications

TRASH PUMPS

Features

- Rugged die-cast pump casings
- 2", 3" & 4" suction/discharge
- Ductile iron impellers
- Silicon/carbide mechanical seals
- Easy access clean-out covers
- 1" protective roll frame
- Gasoline & diesel engine models
- Handles solids up to 2" diameter
- Optional wheel kits available

PUMP ACCESSORIES

Features

- Full line of suction hoses
- Full line of discharge hoses
- Float switches
- Control boxes for submersible pumps
- Wheel kits for pipe frame pumps
- DOT approved industrial trailers for trash pumps

PUMP HOSES

Multiquip offers a complete line of Suction and Discharge Hoses, in sizes from 1-1/2" to 8" with standard thread or quick-disconnect couplings.

FLOAT SWITCHES FOR SUB PUMPS

Multiquip offers industrial Float Switches, to support dewatering operations. Single and Dual Float Switches available.

CONTROL BOXES FOR SUB PUMPS

Multiquip offers rugged Control Boxes, for sub pump operations and electrical protection. Pumps requiring Control Boxes: ST3050D, ST41230, ST41460, ST61230 and ST61460.

TRASH PUMP WHEEL KITS and TRAILERS

Optional wheel kits are available for almost every Multiquip trash pump.

Easily installed, they simplify mobility on the job site.

Industrial towable trailers with fuel cells are available for QP4TZ, MQ62TDD and MQ600TD80 models.

WATER TRAILERS

Features

- High strength 525 gallon polyethylene water tank
- Industrial DOT Certified dual axle trailers
- Rear mounted accessory hose bin
- Suction/Discharge hose sections provided
- Trusted Multiquip centrifugal water pumps
- Simple 2-control handle manifold system
- Left/right discharge and suction ports
- Cam and Groove lock discharge and suction couplers
- Rear spray bar system
- Rugged, convenient steel hydrant fill tube

MAYCO MECHANICAL BALL VALVE PUMPS

Features

- Powerful, 45 HP Zenith Gasoline
- One-piece forged, heat-treated crankshaft
- 3-speed volume control allows the operator to vary the flow
- Fully-enclosed “splash” lubrication box provides clean, positive piston lubrication
- Ball and valve seat

Technical specifications

MAYCO HYDRAULIC SWING TUBE PUMPS

Features

- Versatile—shotcrete, masonry block fill, slabs, footings
- Designed to pump larger aggregate up to 1-1/2"
- Variable volume output from 0 to 45 cu. yds. per hour
- Up to 1,100 psi piston face pressure
- Digital diagnostic control panel
- Available with optional wireless remote control

Technical specifications

TOWABLE CONCRETE MIXERS

Features

- Steel drum or polyethylene versions available
- Variety of power sources
- Leaf springs standard on 6-, 9- and 12-cu. ft. mixers
- Oversized dump wheel – easier to discharge material
- 13" tires for safe towing
- Steel mixers available with 4-, 6- or 9-cu. ft. drums
- Polyethylene models available with 6-, 9- or 12-cu. ft. drums; simplify cleanup while resisting rust and dents

POLYETHYLENE DRUMS

Polyethylene drum mixers clean out easily and quickly! These photos show a batch of concrete that was left to dry for more than 24 hours. With a few taps of a mallet, virtually all the dried material falls out of the mixer. It's truly that simple to clean!

PORTABLE CONCRETE MIXERS

Features

- Mix-N-Go is perfect for homeowners, small jobs and multiple work sites

Technical specifications

MUDTUBS

MUDTUBS

Features

- Capacity 10-cu. ft. (.28 m3)
- Highly durable polyethylene construction resistant to cold weather and UV
- Our tough Easy Clean™ tubs can be cleaned in minutes with tap of rubber mallet
- Resists dents, rust or cracks
- Mud Tub features 4" x 4" rectangular steel feet
- Mud Tub W features heavy-duty, high impact resistance 8 inch casters
- One-year warranty
- Approximate 1,000 lb. capacity

WHITEMAN TOWABLE PLASTER/MORTAR MIXERS

Features

- Hydraulic-drive options on 12-cu. ft. models
- Available in 6.3-, 7-, 9- and 12-cu. ft. models
- Heavy-duty safety grate with built-in bag cutter
- 13" tires for safe towing
- Forklift pockets
- Steel models offer durable drum up to 3/16" thick
- Polyethylene drums simplify cleanup while resisting rust and dents

TUFFTRUK WALK BEHIND POWER BUGGY

Features

- Zero Emission battery drive
- Long-lasting charge solid 8 hours or typically two or three days under normal conditions
- Quiet operation produces very low noise
- True 4-wheel drive with flotation tires
- Excellent maneuverability with 40 degree articulation
- Available with a variety of attachments
- Rugged steel or poly tub

DUOSCREED BLADE

The handheld screed uses a unique reversible blade that is designed for form-to-form and wet screeding.

RIDE-ON TROWELS

FLOAT PANS & TROWEL BLADES

Pans: Superflat or flat configurations, for use with ride-on trowels, and flat or domed for use with walk-behind trowels.

Allows fast floating and easy movement from wet to dry areas. Excellent for applying shake-on toppings. Achieve higher FF numbers and increased production. Available in the following sizes: 24", 36", 46" and 60".

Blades: Float, finish and combination float/finish for walk-behind and ride-on trowels

Interchangeable with most competitive models. Provides best possible results when used with Whiteman trowels.

Unique Enduro Blade series features heavy-duty design, providing up to 50% longer life. Quick-change blades have bolt-less design for fast, easy blade replacement.

WHITEMAN TRUSS SCREEDS

Features

- Durable triangular steel truss spans up to 65 ft.
- Gas engine-driven vibration, steel truss design
- Heavy-duty steel construction
- Optional self-propelled winches minimize labor
- Engine-Powered

WHITEMAN INSTACLUTCH™

Features

- Advanced friction clutch stops the unit before a quarter of a turn if the operator releases the handle at full RPM
- Eliminates need to throttle engine down during momentary work stoppages
- Four blade spider assembly features economically replaceable wear parts that reduce maintenance costs over the life of the machine
- Proven gearbox durability delivers years of trouble-free operation
- Handle assemblies for the InstaClutch™ system include a Standard or QuickPitch™ option

WHITEMAN HEAVY-DUTY TROWELS

Features

- High-speed models for burnishing of slabs
- Heavy-duty gearboxes to handle extra weight and performance of the HDA series
- Variable-speed transmission on HDA48413H
- CVT drive system allows the high torque panning and high speed for burnishing slabs

Technical specifications

MODEL	COVERAGE IN (MM)	BLADES	ROTOR RPM	ENGINE	HP (KW) ¹	WEIGHT LBS (KG)
HDA48413H	48 (1,220)	4	30-225	HONDA	11.7 (8.7)	315 (166)

¹ See page 50 for details.

WHITEMAN TROWELS

Features

- Reliable gasoline engines and electric motors
- Optional QuickPitch™ Control for fast, precise blade adjustment
- Equipped with heavy-duty centrifugal clutch
- Optional manual (hand) clutch
- Precision balanced for the ultimate finish
- CA4HM has folding handle
- J3036H55 edger converts from 30" to 36"

Technical specifications

MODEL	COVERAGE IN (MM)	HP (KW) ¹	MOTOR	RPM
CA4HM	24 (610)	3.5 (2.6)	HONDA	70-130
CA4HC	24 (610)	3.5 (2.6)	HONDA	70-130
J36E2	36 (914)	2 (1.5)	230V	30-160
J3036H55	36 (914)	4.8 (3.6)	HONDA	60-115
J36H55	36 (914)	4.8 (3.6)	HONDA	60-115
J36H90H	36 (914)	8.5 (6.3)	HONDA	90-155
B46H90	46 (1,170)	8.5 (6.3)	HONDA	60-130
B46H11H	46 (1,170)	9.5 (7.1)	HONDA	90-155

¹ See page 50 for details.

WHITEMAN TROWELS - MECHANICAL DRIVE

Features

- Twin 36" and 48" models
- HHNG5 features air-cooled 35 HP Vanguard engine
- Twin Pitch control simultaneously adjusts blade pitch of rotors or disengages to adjust individually
- CVT Drive System allows high-torque panning and high-speed for burnishing slabs

Technical specifications

MODEL	PATH WIDTH IN (MM)	ROTOR RPM	ENGINE	HP (KW) ¹	WEIGHT LBS (KG)
JWN24HTCSL	75 (1,910)	30-180	HONDA	24 (17.8)	685 (209)
HHNG5	92 (2,336.8)	0-180	VANGUARD	35 (26)	1,083 (491)
HHXDF5	92 (2,336.8)	0-180	KUBOTA WG972	31 (22.8)	1,654 (750)

¹ See page 50 for details.

WHITEMAN HYDRAULIC DRIVE TROWELS/ ELECTRIC DRIVE POWER FLOAT

Features

- Patented Engine Power management senses engine load and adjusts hydraulic pump stroke allowing engine to run at peak efficiency
- 6-ft, 8-ft, 10-ft, & 12-ft models available
- Optimum speed and torque range for floating and finishing
- SmartPitch, cruise control, and LED lighting
- Tier 4 final Hatz engines on STX6H/HTX6H models
- Ford Power Products engines on STXDF/PRX models
- Clamshell design simplifies maintenance and permits convenient access to all service items
- Gasoline/Propane option on HTXG6DF, STXDF, & PRX
- Lights and spray system factory-installed on LD6SL

Technical specifications

MODEL	PATH WIDTH IN (MM)	ROTOR RPM	ENGINE	HP (KW) ¹	WEIGHT LBS (KG)

CHEMICAL SPRAYING SYSTEM

Features

- Durable 5.5 HP gear reduction Honda GX160 engine allows for years of trouble-free service
- WSC55BM attachment offers the versatility of moving from a rolling cart to a stationary barrel for ease of application
- Quick disconnect hoses offer the ability to quickly change from one product to another
- Chemical Platform is sloped by design to allow all liquid to easily be dispensed from any container
- Tow handle allows this unit to be moved on the job site by hand unloaded, or with an all-terrain fork truck when loaded
- Engine driven compressor allows the operator to recycle any leftover product remaining in the system back into the original container (Compressor Offered on WSC55 only)
- Simple parking brake allows the unit to be secured on unstable or uneven ground at all times
- Smooth tires have no tread to reduce risk of surface defects
- Easy access to hose connections
- Accessory tray enables all fittings and nozzles to be kept in one location
- Operating weight: 290 LBS

MQ WHITEMAN CONCRETE SOLUTIONS

For more than 75 years, MQ Whiteman has been recognized around the world as the leader in flat floor placement and finishing. Now we expand our line with a revolutionary group of environmentally-friendly chemical solutions. MQ SlabArmor™ Products will forever change the way concrete is placed, finished and maintained.

SlabArmor™ Finishing Solutions

Using walk-behind or ride-on power trowels, the SlabArmor™ patented curing formula and application process starts working immediately when applied during concrete placement. The nano-sized technology creates a hydration-enhancing vapor barrier and allows the contractor unprecedented control over the finishing process, extending the time to finish concrete in all weather conditions. Through this patented system, SlabArmor™ creates even hydration resulting in denser concrete and flatter floors with minimized cracking or curling.

SlabArmor™ Starter/Closer

SlabArmor™ Starter / Finishing Aid

SlabArmor™ refines the surface of the slab while retaining 97% of the placement water, significantly minimizing volume loss, cracking and curling.

SlabArmor™ Closer / Densifier

This spray on, leave on material is a fast acting formula allowing for minimal down time.

With the SlabArmor™ system, consolidation of the construction schedule is possible due to all curing and densification happening at time of placement by the flatwork contractor. It is suitable for use on cementitious-based products and can be used in conjunction with diamond polishing and/or decorative color.

SlabArmor™ Plus Maintenance Solutions

SlabArmor™ Plus products assist in the restoration and revitalization of existing concrete, while they also protect and maintain your SlabArmor™ cured concrete. Through continued use, MQ SlabArmor™ Plus products create a denser, more sustainable finish over time. This also includes a family of pH neutral products that effectively removes the built-up concrete from concrete mixer drums and equipment in an environmentally responsible manner.

SlabArmor™ Plus Clean&Condition

This high performance neutral pH cleaner, conditioner and restorer quickly releases oils and deposits from the floor surface through a sophisticated proprietary chemical matrix of hyper-effective wetting agents. SlabArmor™ Plus Clean&Condition is specially formulated to clean and enhance polished concrete. Regular use will increase the abrasion resistance of any concrete floor.

SlabArmor™ Plus Condition&Restore

Cleaning floors has never been easier. SlabArmor™ Plus Condition&Restore is a powerful, easy to use cleaner that restores gloss and durability to floors while washing away dirt, grime and any other undesirable materials. This economical product will reduce the amount of labor required in the cleaning process, as well as extend the life of the floor.

SlabArmor™ Plus Seal&Shine

A reactive penetrating product that forms an insoluble chemical bond to produce a dense sealed surface, with superior hardness, enhanced gloss and slip resistance.

PermaMelt™

Can be used as an Anti-Icer to prevent accumulation of snow and ice before the storm, or as a De-Icer after the storm to facilitate ice and snow removal.

SlabArmor™ Plus Equipment Wash

(Not pictured.) Achieve results that last while reducing maintenance expenses and upkeep requirements over the life of your equipment.

SlabArmor™ Plus Drum Wash

Attain greater levels of ROI and increase overall operating efficiencies by hauling only what you get paid for.

ALPHA CONCRETE & MORTAR DISSOLVER

Alpha Concrete & Mortar Dissolver is a liquid compound specifically formulated to dissolve built up cement or mortar on tools and equipment.

EarthSmart™

Features

- Removes all types of cement, concrete, mortar, grout and stucco
- Removes mineral deposits from any surface
- 100% biodegradable, non-corrosive and acid-free
- Will not cause rust or corrosion
- Safe to use on metals, equipment, wood, glass or painted surfaces
- Removes efflorescence from decorative concrete
- Fast acting and odorless

Ant-Equipment

DIAMOND BLADES

Features

- Trusted Diamond Blades for cured concrete, asphalt, green concrete, masonry materials, tile and stone
- Multiple blade diameters and quality grades
- Laser weld technology, industrial steel cores and top quality diamond matrix formulas
- Guaranteed operating performance

DIAMOND CUP WHEELS & GRINDING DISCS

Features

- Top quality manufactured Grinding Wheels for cured concrete, mortar and all masonry materials
- Easily adapt to right-angle grinders and grinding machines
- Multiple disc diameters available
- Guaranteed operating performance

DIAMOND CORE BITS

Features

- High performance core bits for cured concrete, asphalt, tile, stone and masonry materials
- Laser weld technology
- Multiple bit diameters available
- Guaranteed operating performance
