## The standard in high-quality equipment solutions.

In business for four decades, Multi-quip is one of the largest, most diversified manufacturers and suppliers of world class quality products and solutions for the construction, industrial, telecom, government, non-commercial, aerospace, entertainment, and oil and gas exploration markets.

Multi-quip's comprehensive product portfolio encompasses light to medium construction equipment, power generators and lighting. Servicing customers worldwide, Multi-quip distributes its products in more than 70 countries through thousands of authorized distribution partners.

## MIKASA RAMMERS

### Features

- Four cycle engines available from Honda
- Optional shoe sizes and extensions available
- Cyclone air filtration system on MTX series
- Cam-type clutch
- Grease- and oil-bath-lubricated models

### MTX SERIES RAMMERS

#### 4 Cycle Engines

Honda offerings to meet operator expectations of reliability and easy starts.

**MTX-series rammers** feature an anti-vibration handle that significantly reduces operator fatigue.

**Throttle design** enables contractor to control engine speed and fuel delivery with a single lever.

**Combination tachometer and engine hour meter** provides engine RPM and helps track service intervals.

## MIKASA FORWARD PLATE COMPACTORS

### Features

- Hour/tachometer standard on MVC88 series
- Cyclonic pre-cleaner on select models
- Removable water tank on select models
- Low-vibration handles on selected models
- Cogged belt drive on MVC88 series
- Open base plate design

## MIKASA PAVER PLATE COMPACTORS

### Features

- Hard rubber rollers protect pavers from scratching, chipping, breaking and dragging
- Great for narrow areas and compaction alongside walls
- Toolless foldable handle allows for quick and easy loading into vans and trucks
- Rollers allow for easy pull back to compact on the spot
- Greatly improves productivity compared to standard plate compactors

## MIKASA REVERSIBLE PLATE COMPACTORS

### Features

- High-horsepower gasoline and diesel engines
- Selected models include hour/tachometer
- Selected models include cyclone pre-cleaner
- Selected models include extension plates as standard
- Hydraulic forward and reverse
- Adjustable handle height
- Compas Technology-Optional Compaction Analyzing System on select models

## WALK-BEHIND SINGLE-DRUM ROLLERS

### Features

- Maintenance free vibratory assembly
- Elongated steering handle
- Plastic water tank
- Three water flow adjustment settings
- Hour/Tachometer
- 29" wide steel drum
- Adjustable transport hooks
- Hydrostatic drive system

## RAMMAX ARTICULATING TRENCH ROLLERS

### Features

- Articulating roller with flexible drum options for 24" and 33" working widths including removable drum rings
- Durable articulation joint requires no greasing
- Oscillating joint keeps drum rolls in contact with soil for optimum compaction
- Yanmar engine delivers reliable starting and performance
- Infrared remote charges using solar power and automatically synchronizes with the roller
- Front and rear covers provide easy access to all maintenance points

## RIDE-ON TANDEM DRUM ROLLERS

### AR14H Features

- Compact design
- Articulated steering
- Maintenance free articulation joint and vibratory assembly
- Integrated hour/tachometer
- 12V power outlet and cup holder on cockpit
- Easy access to service points
- 35 gallon water tank

## MQ POWER PORTABLE GENERATORS

### Features

- Sizes ranging from 2,500 to 9,700 watts
- Two-year warranty
- Voltage regulation maintained within  $\pm 3\%$
- Brushless design minimizes maintenance
- Idle control on GA 36, GA 6, GA 97 and DA 7000SSA3 models
- Optional wheel kits available for GA 25, GA 97, DA 7000SSA3
- All receptacles GFCI protected (USA only)

## MQ POWER WHISPERWATT

### Features

- Ideal for portable, standby and special events
- Highway-legal trailers and auxiliary fuel tanks available
- Patented Open-Delta generator offers “best in class” motor starting
- Excellent voltage and frequency regulation
- Designed for low-noise operation - surpasses OSHA standards
- Full engine and generator instrumentation
- Equipped with Tier 4 engines

Optional trailer

# WELDERS MQ POWER ENGINE POWERED WELDERS

## Features

- The industry's most versatile line of welder / generators
- Simultaneous use of DC Welding and AC power output on selected models
- CC/CV welding output on 225 Amp and larger models
- Dual welding capability on DLW330X2 and DLW400ESA4 for maximum productivity
- Smart stick functions on DLW330X2 and DLW400ESA4. Automatically starts/stops engine for optimal fuel conservation.
- Selected models feature E-mode to reduce fuel consumption and noise levels
- Optional remote available on selected models (225-500)
- AC receptacles GFCI protected

## MQ POWER HEAVY DUTY TRAILERS

### Features

- Heavy duty welded steel frame construction
- Powder coat paint process including frame, channel, actuator and fenders (excluding TRLR600ZBP2)
- D.O.T. approved tail lamps, stop lamps, turn signal lamps and side marker lamps
- Surge hydraulic or electric-actuated drum brakes (all axles) on select models

## GLOBUG BALLOON LIGHTS

### Features

- Operates on 120V AC Power
- 360° illumination
- Glare-free lighting
- Internal electric ballast
- Weather resistant balloon material
- Metal Halide and LED lamp options
- Easy set-up and transportation
- Industrially designed stand and cart options.

Optional generator

## PUMP ACCESSORIES

### Features

- Full line of suction hoses
- Full line of discharge hoses
- Float switches
- Control boxes for submersible pumps
- Wheel kits for pipe frame pumps
- DOT approved industrial trailers for trash pumps

### PUMP HOSES

**Multiquip offers a complete line of Suction and Discharge Hoses**, in sizes from 1-1/2" to 8" with standard thread or quick-disconnect couplings.

### FLOAT SWITCHES FOR SUB PUMPS

**Multiquip offers industrial Float Switches**, to support dewatering operations. Single and Dual Float Switches available.

### CONTROL BOXES FOR SUB PUMPS

**Multiquip offers rugged Control Boxes**, for sub pump operations and electrical protection. Pumps requiring Control Boxes: ST3050D, ST41230, ST41460, ST61230 and ST61460.

### TRASH PUMP WHEEL KITS and TRAILERS

**Optional wheel kits are available for almost every Multiquip trash pump.**

Easily installed, they simplify mobility on the job site.

**Industrial towable trailers with fuel cells** are available for QP4TZ, MQ62TDD and MQ600TD80 models.

## WATER TRAILERS

### Features

- High strength 525 gallon polyethylene water tank
- Industrial DOT Certified dual axle trailers
- Rear mounted accessory hose bin
- Suction/Discharge hose sections provided
- Trusted Multiquip centrifugal water pumps
- Simple 2-control handle manifold system
- Left/right discharge and suction ports
- Cam and Groove lock discharge and suction couplers
- Rear spray bar system
- Rugged, convenient steel hydrant fill tube

## MAYCO MECHANICAL BALL VALVE PUMPS

### Features

- Powerful, 45-HP Zenith Gasoline
- One-piece forged, heat-treated crankshaft
- 3-speed volume control allows the operator to vary the flow
- Fully-enclosed “splash” lubrication box provides clean, positive piston lubrication
- Ball and valve seat

## MAYCO HYDRAULIC SWING TUBE PUMPS

### Features

- Versatile—shotcrete, masonry block fill, slabs, footings
- Designed to pump larger aggregate up to 1-1/2"
- Variable volume output from 0 to 45 cu. yds. per hour
- Up to 1,100 psi piston face pressure
- Digital diagnostic control panel
- Available with optional wireless remote control

## TOWABLE CONCRETE MIXERS

### Features

- Steel drum or polyethylene versions available
- Variety of power sources
- Leaf springs standard on 6-, 9- and 12-cu. ft. mixers
- Oversized dump wheel – easier to discharge material
- 13" tires for safe towing
- Steel mixers available with 4-, 6- or 9-cu. ft. drums
- Polyethylene models available with 6-, 9- or 12-cu. ft. drums; simplify cleanup while resisting rust and dents

## INTELLIGENT HIGH-CYCLE CONCRETE VIBRATORS

Available Mid-Summer 2020

### Features

- The iCVC Intelligent Controller varies the voltage output to the vibrator head, maintaining the proper RPM and frequency as conditions change. Conventional concrete vibrators reduce motor RPM and frequency under changing loads.
- No-load ECO mode with instant restart under load.
- Intelligent plug-and-play Smart Select between Controller and four Head sizes.
- LED fault indicator for easy troubleshooting.
- Rugged control box with sealed electronics.

### DUOSCREED BLADE

The handheld screed uses a unique reversible blade that is designed for form-to-form and wet screeding.

### FLOAT PANS & TROWEL BLADES

**Pans: Superflat or flat configurations, for use with ride-on trowels, and flat or domed for use with walk-behind trowels.**

Allows fast floating and easy movement from wet to dry areas. Excellent for applying shake-on toppings. Achieve higher FF numbers and increased production. Available in the following sizes: 24", 36", 46" and 60".

**Blades: Float, finish and combination float/finish for walk-behind and ride-on trowels**

Interchangeable with most competitive models. Provides best possible results when used with Whiteman trowels.

Unique Enduro Blade series features heavy-duty design, providing up to 50% longer life. Quick-change blades have bolt-less design for fast, easy blade replacement.

## WHITEMAN HEAVY-DUTY TROWELS

### Features

- High-speed models for burnishing of slabs
- Heavy-duty gearboxes to handle extra weight and performance of the HDA series
- Variable-speed transmission on HDA48413H
- CVT drive system allows the high torque panning and high speed for burnishing slabs

# WHITEMAN TROWELS

## Features

- Reliable gasoline engines and electric motors
- Optional QuickPitch™ Control for fast, precise blade adjustment
- Equipped with heavy-duty centrifugal clutch
- Optional manual (hand) clutch
- Precision balanced for the ultimate finish
- CA4HM has folding handle
- J3036H55 edger converts from 30" to 36"

WALK-BEHIND TROWELS

## WHITEMAN TROWELS - MECHANICAL DRIVE

### Features

- Twin 36" and 48" models
- HHNG5 features air-cooled 35HP Vanguard engine
- Twin Pitch control simultaneously adjusts blade pitch of rotors or disengages to adjust individually
- CVT Drive System allows high-torque panning and high-speed for burnishing slabs

## WHITEMAN TROWELS - HYDRAULIC DRIVE

### Features

- Patented Engine Power management senses engine load and adjusts hydraulic pump stroke allowing engine to run at peak efficiency
- 6-ft, 8-ft, 10-ft, & 12-ft models available
- Optimum speed and torque range for floating and finishing
- SmartPitch, cruise control, and LED lighting
- Tier 4 final Hatz engines on STX6H/HTX6H models
- Ford Power Products engines on STXDF/PRX models
- Clamshell design simplifies maintenance and permits convenient access to all service items
- Gasoline/Propane option on HTXG6DF, STXDF, & PRX

# CHEMICAL SPRAYING SYSTEM

## Features

- Durable 5.5 HP gear reduction Honda GX160 engine allows for years of trouble-free service
- WSC55BM attachment offers the versatility of moving from a rolling cart to a stationary barrel for ease of application
- Quick disconnect hoses offer the ability to quickly change from one product to another
- Chemical Platform is sloped by design to allow all liquid to easily be dispensed from any container
- Tow handle allows this unit to be moved on the job site by hand unloaded, or with an all terrain fork truck when loaded
- Engine driven compressor allows the operator to recycle any leftover product remaining in the system back into the original container (Compressor Offered on WSC55 only)
- Simple parking brake allows the unit to be secured on unstable or uneven ground at all times
- Smooth tires have no tread to reduce risk of surface defects
- Easy access to hose connections
- Accessory tray enables all fittings and nozzles to be kept in one location
- Operating weight: 290 LBS

## MQ WHITEMAN CONCRETE SOLUTIONS

For more than 75 years, MQ Whiteman has been recognized around the world as the leader in flat floor placement and finishing. Now we expand our line with a revolutionary group of environmentally-friendly chemical solutions. MQ SlabArmor™ Products will forever change the way concrete is placed, finished and maintained.

### SlabArmor™ Finishing Solutions

Using walk-behind or ride on power trowels, the SlabArmor™ patented curing formula and application process starts working immediately when applied during concrete placement. The nano-sized technology creates a hydration-enhancing vapor barrier and allows the contractor unprecedented control over the finishing process, extending the time to finish concrete in all weather conditions. Through this patented system, SlabArmor™ creates even hydration resulting in denser concrete and flatter floors with minimized cracking or curling.

### SlabArmor™ Starter/Closer

#### SlabArmor™ Starter / Finishing Aid

SlabArmor™ refines the surface of the slab while retaining 97% of the placement water, significantly minimizing volume loss, cracking and curling.

#### SlabArmor™ Closer / Densifier

This spray on, leave on material is a fast acting formula allowing for minimal down time.

The SlabArmor™ system consolidation of the construction schedule is possible due to all curing and densification happening at time of placement by the flatwork contractor. It is suitable for use on cementitious-based products and can be used in conjunction with diamond polishing and/or decorative color.

## SlabArmor™ Plus Maintenance Solutions

SlabArmor™ Plus products assist in the restoration and revitalization of existing concrete, while they also protect and maintain your SlabArmor™ cured concrete. Through continued use, MQ SlabArmor™ Plus products create a denser, more sustainable finish over time. This also includes a family of pH neutral products that effectively removes the built-up concrete from concrete mixer drums and equipment in an environmentally responsible manner.

### SlabArmor™ Plus Clean&Condition

This high performance neutral pH cleaner, conditioner and restorer quickly releases oils and deposits from the floor surface through a sophisticated proprietary chemical matrix of hyper-effective wetting agents. SlabArmor™ Plus Clean&Condition is specially formulated to clean and enhance polished concrete. Regular use will increase the abrasion resistance of any concrete floor.

### SlabArmor™ Plus Condition&Restore

Cleaning floors has never been easier. SlabArmor™ Plus Condition&Restore is a powerful, easy to use cleaner that restores gloss and durability to floors while washing away dirt, grime and any other undesirable materials. This economical product will reduce the amount of labor required in the cleaning process, as well as extend the life of the floor.

### SlabArmor™ Plus Seal&Shine

A reactive penetrating product that forms an insoluble chemical bond to produce a dense sealed surface, with superior hardness, enhanced gloss and slip resistance.

### PermaMelt™

Can be used as an Anti-Icer to prevent accumulation of snow and ice before the storm, or as a De-Icer after the storm to facilitate ice and snow removal.

### SlabArmor™ Plus Equipment Wash

(Not pictured.) Achieve results that last while reducing maintenance expenses and upkeep requirements over the life of your equipment.

### SlabArmor™ Plus Drum Wash

Attain greater levels of ROI and increase overall operating efficiencies by hauling only what you get paid for.

## DIAMOND BLADES

### Features

- Blades for concrete, asphalt, masonry, ceramics and stone
- Core Bits for concrete, asphalt, masonry, ceramics and stone
- Top quality manufacturing
- Guaranteed performance
- Laser Weld Technology

For Blade and Core Bit specifications, please request the Diamond Cutting Tools brochure.

## MASONRY SAWS MP1 SERIES

### Features

- Gasoline or electric models
- 14" (356mm) blade capacity
- 5" (127mm) depth of cut
- Mounted carrying handles
- Open-back design
- Industrial water pump

Models MP115E, MP120E, MP1H

Shown with optional saw stand

## MASONRY SAWS MP2 SERIES

### Features

- Gasoline or electric models
- 20" (508mm) blade capacity
- 8" (229mm) depth of cut
- Open-back design
- Foot-pedal/screw-thread cutting head control
- Industrial water pump

Models MP25E1, MP25E3, MP2H

## ECHO BARRIER

### Features

- Front outer layer – Extremely durable, waterproof, high quality PVC, with optimum mass to ensure maximum noise reduction while retaining a professional appearance.
- Acoustic absorbent – Highest grade acoustic absorbent made from bio-degradable recycled material, prevents noise reflecting off the barrier.
- Waterproof, breathable membrane – Allows noise to be absorbed but keeps water out.
- Durable reinforced mesh – Extends product life to retain acoustic performance in harsh working environments.
