SQUEALER® Series
Rotary Cutters

Bush Hog TOUGH Features Mean Superior Performance That Lasts For Years

9 Bush Hog TOUGH Features

1. TOUGH Below Deck Structure delivers water and debris shedding capabilities of sloped deck and Bush Hog's famous strength. Integral strong backs tie front leading edge to rear band.

2. TOUGH Side Bands with welded skids are continuously welded and tied together through the integrated gearbox stand.

3. TOUGH Rear Band is continuously welded and curved to resist bending going forward and backing up.

4. TOUGH 3-Point Tail Wheel Frame is built to resist side loads during turns that can over stress cheaper in-line designs.

5. TOUGH Original Bush Hog Design that made Bush Hog rotary cutters famous for power, durability and reliability. Power, durability and reliability are delivered year after year by Bush Hog's stump jumper pan that lifts over obstructions and free-swinging blade that is held in position by one of nature's basic phenomena--centrifugal force.

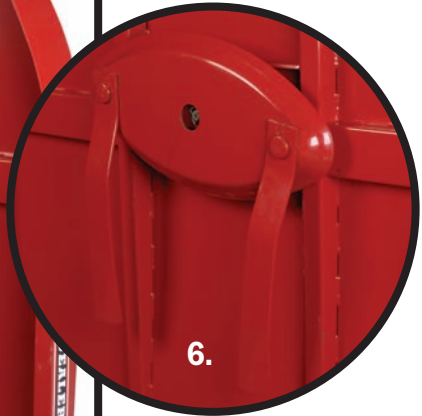

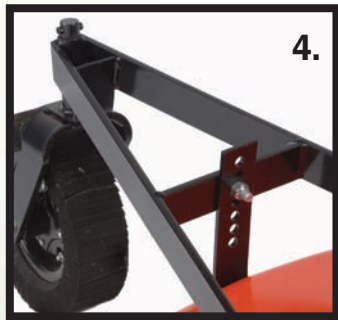

6. TOUGH Genuine Bush Hog Blades. Made especially for Bush Hog, and featuring the unique Bush Hog brand, they are forged and heat treated for long-lasting sharpness.

7. TOUGH World-Famous Bush Hog Gearboxes are stamped with the Bush Hog brand for easy recognition. Classic Bush Hog gearbox design increases life span with shear pin or slip clutch protection proven in more than 150,000 Bush Hog rotary cutters. Tapered roller bearings and splined output shaft resist thrust and side loads as the pan pushes cutter up or to the side of large obstacles such as rocks or stumps.

8. TOUGH Laminated Tail Wheel. Same laminated rubber tail wheel featured on larger Bush Hog cutters that clear fields.

9. TOUGH Full Length Skids. 1/4-inch skids run one-half the length of the deck to protect side bands and add strength that resists bending.

Cutter Size	Gauge of Deck	Depth of Side Band
42-inch	11- gauge	9 ³ / ₄ -inches
48-inch	11- gauge	10-inches
60-inch	11- gauge	9 ³ / ₄ -inches
72-inch	10 - gauge	9 ³ / ₄ -inches
84-inch	10 - gauge	10 ¹ / ₄ -inches
84-inch twin gearbox	11 - gauge	7 ³ / ₈ -inches
