

UPDATES AND DEVELOPMENTS

FOLLOW BELOW THE RESULTS OF ULTRASONIC TESTS CARRIED OUT ON OUR NEW CHASSIS, REGARDING THE DURABILITY AND RESISTANCE OF THE MATERIAL.

- The tests were performed on different points, where the mechanical efforts are more present, in other words, on the structural welds.

- This analyses was required, for ensuring that our new chassis will withstand not only during towing conditions, but also during operation.

- The outcome of the test, is that our chassis was approved by the requirements present on *ASME Section V reference standard, 2019 edition, and evaluation according to ASME VIII, Division 1-2, Sec.*

SOLID VALUES, SUSTAINABLE FUTURE.

It is great to reach our 80th year this strong and renewed. Standing on ethic an humanitarian values and always prioritizing quality in everything we do, the Menegotti Group - with all its companies and brands - is prepared to contribute for the construction of a better and more sustainable future to the world.

Thank you so much!
You're part of this history.
