## HT7-2 DISC FLOOR SANDER

A modern power tool that delivers unrivaled power and performance. The HT7-2 is the safest edger available with bias off switching and disposable paper dust bags. The ideal partner to the Floor Team™ range of drum floor sanders.

### DESCRIPTION

A high performance disc floor sander engineered by modern design and production techniques. The powerful four brush motor drives a dynamically balanced sanding pad through a hardened steel alloy pinion and large diameter aluminium bronze drive gear, providing superb balance and feel. Sanding a high quality finish on all types of wood flooring, decking and other surfaces. Completely self contained with a high efficiency dust pickup the HT7-2 is suitable for use by the professional and homeowner.

### USES

The HT7-2 Disc Floor Sander will sand hard and soft wood floors, including parquet, and any solid wood surface that requires rapid sanding and levelling to a fine score free finish. Also suitable for sanding cork and composition floors. Ideal for confined areas such as closets and stair treads and sanding right up to the edge of a floor (edge sanding) without damage to the base board.

### FEATURES

The bias off switch and disposable paper dust bag system make the HT7-2 the safest disc floor sander available. While the continuous heavy duty self cooling four brush motor will not stall or slow down under load when sanding with coarse grit abrasives, removing old surface finishes and deposits of wax and dirt. Superb balance and feel make it easy to sand a score free finish with a high production rate.

### SPECIFICATIONS

Power Supply:	220/250V	50/60Hz
	110/120V	50/60Hz
Off Load Current:	220/250V	5A
	110/120V	8A
Load Current (Av.):	220/250V	8A
	110/120V	15A
Noise:	100 dBa at 1m	
Vibration:	0.033 M <sup>2</sup> H Aeq8 (8 Hr. RMS )	
Switch:	Bias Off, double pole.	
Motor:	Continuous heavy duty AC/DC self cooling four brush.	
Motor RPM:	13,000	
Disc RPM:	3,000	
Disc:	178mm	
Drive:	Hardened steel alloy pinion and large diameter aluminium bronze drive gear.	
Dust Pick-up:	Seated oversized wide blade vacuum fan. Disposable paper dust bags or cloth bag.	
Abrasive:	178mm dia. x 22mm dia. center hole. 24 to 120 grit fibre or paper backed.	
Weight:	16.4kg (36.2lbs)	
Shipping Weight:	18.0kg (39.7lbs)
