POWER AND FUEL EFFICIENCY

The Ammann ARS 30 Single Drum Rollers utilise advanced technology, innovative engineering and robust engines with the latest emission standards. A combination of a well-balanced engine, fully hydrostatic drive system and control deliver exceptional fuel consumption. That efficiency and a large fuel tank means a roller need only be fuelled once every three working shifts.

PRODUCTIVITY

High compaction output

Fast, precise compaction in the fewest possible passes

No-rear-axle concept

Utilises unique machine design with low centre of gravity for improved stability, manoeuvrability and optimal jobsite safety

Twin-lock drive

Improves traction and reduces slipping of axles

ERGONOMICS

Simple & reliable dashboard

Intuitive machine control, even with an unskilled operator

Unobstructed visibility

Excellent all-around machine visibility for safety on the jobsite

Operator workplace

Ergonomically friendly operator station designed for high operator comfort during working day

APPLICATIONS

- Landscaping
- Forest roads
- Municipal roads
- Walking/bicycle paths
