Tampering with noise control system prohibited.

Federal law prohibits the following acts or the causing thereof:

- (1) The removal or rendering inoperative by any persons, other than for purposes of maintenance or repair, of any device or element of design incorporated into any new compressor for the purpose of noise control prior to its sale or delivery to the ultimate purchaser or while it is in use; or
- (2) The use of the compressor after such device or element of design has been removed or rendered inoperative by any person.

Among those acts included in the prohibition against tampering are the acts listed below.

1. Removal or rendering inoperative any of the following:
 - a. engine exhaust muffler
 - b. cooling air exhaust and intake silencing
 - c. acoustic baffles
 - d. housing components, canopy, or bottom panel
 - e. engine or compressor mounts
 - f. intake air treating system
2. Removal of any of the following:
 - a. sound absorptive material, including sealing strips on doors, panels and other canopy parts
 - b. fan shroud
3. Operation of the compressor with any of the above doors open

10

WARNING

Breathing diesel engine exhaust exposes you to chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

- Always start and operate the engine in a well-ventilated area.
- If in an enclosed area, vent the exhaust to the outside.
- Do not modify or tamper with the exhaust system.
- Do not idle the engine except as necessary.

For more information go to www.P65warnings.ca.gov/diesel
