Light Tower

The unique articulated hydraulic mast is ideal for the mining industry, as well as use on railroad, municipal and large construction sites.

## Specifications

Articulated hydraulic mast provides maximum flexibility and control for quick, effortless light positioning.
28 foot vertical height, 20 foot horizontal outreach and 359 degree powered rotation.

8 foot 2 inch stowed length provides for ease of transport for towing or transportation on a trailer or container.

Optional environmental spill containment to meet local regulations or for use in sensitive areas.
Light fixtures plug into weatherproof receptacle box at top of tower with UL and CSA-approved connectors.

Individual plug-in ballasts installed in galvanized steel boxes. Can be replaced without disconnecting wiring terminals.
Control panel is inside, away from the elements. Houses main and branch circuit breakers and hourmeter.

Galvanized outriggers with pre-set position stops ensure quick and proper spacing.
Single point lifting eye and forklift pockets provide for easy loading and unloading.
Optional Australian mining configuration designed specifically to meet Australian regulations and mining application requirements.
