

OMEGA700

LARGE SINGLE-HEAD GRINDER

OMEGA 700 FOR MAXIMUM SPEED AND PERFORMANCE IN SURFACE PREPARATION WITH ITS AGGRESSIVENESS IN GRINDING

The OMEGA 700 is engineered with an extensive background of knowledge and development, combined with years of experience designing single headed grinders, as well as complex counterrotating, multi-headed units. For the first time, the two working principles have been unified - the OMEGA 700 excels, due to its immense ability to achieve the high production speeds of a single headed grinder, while still maintaining the ability to produce incredible torque and high grinding pressures, which counter-rotating units are known for.

TECHNICAL SPECS

Part Number	CTGALPHA-Q
Maximum Working Width	9 in
Motor	1.5 hp 110 V, 60 Hz, 15 Amps
Dimensions (H x L x W)	20 x 24 x 30 in
Weight	81 lbs

FEATURES

- Integrated dust port ensures dust free operation when used with a proper dust collection system
- 1680 RPM
- Variable speed option
- Flexible drive coupling
- Carry handle for easy transport
- Lightweight design
- Grind up close to walls
- Wide variety of tooling available for cutting and coating removal
