

RIDE-ON TROWELS RIDING TROWELS

BARTELL
CONCRETE EQUIPMENT

Bartell ride-on power trowels have been engineered to meet the demands of the professional contractor for a lightweight, high production machine with easy maintenance characteristics. Our ride-on power trowels come in both overlap and non-overlap models with path widths ranging from 65" (165cm) to 92.25" (234cm). These units are powered by air-cooled engines and are suitable for both float and finish operations.

Bartell Morrison Inc. offers the only certified original replacement Power Trowel with finish blades, combination blades, floats, and float pans. Specify only original replacement trowel blades for your Bartell Power Trowel to maximize your productivity.
