# Whiteman Series Power Buggies

*The innovative Whiteman Series WBH-16 concrete and material handling Power Buggies from Multi-quip is the newest, most advanced buggy line available on the market.*

In addition to concrete spreading and spot pouring, the versatile 16-cubic-foot units are designed for landscaping applications, material sub-base distribution, job site cleanup and material transport.

8% to 10% greater dumping reach than most other buggies on the market

5% greater dumping angle than the competition; eliminates the need to manually remove material

Splash protection — a unique tub design reduces concrete splatter outside of bucket

Infinitely variable, fully hydrostatic drive system allows smooth, steady operation

Fully hydraulic dump can be controlled by a hand lever or foot pedal

Large 5.5-gallon fuel tank for extended, uninterrupted use

Heavy duty poly rust/dent resistant tub

Heavy-duty frame with low center of gravity for increased stability and traction

Meets ASME Standard B56.8-1993

Removable tires provide easy access to narrow work areas

Tilting expanded metal floor plate

Lifting and tow points — multiple lift points provide easy loading

5.5-gallon fuel tank

Hydraulic dump hand control

Split top allows easy access to components

Design allows maneuvering in confined space

Mechanical parking brake

Foam-filled tires available — provide additional traction and puncture resistance

Forward/Reverse Control freewheels when placed in neutral

Foot-actuated brakes

Hydraulic dump control

Expanded metal floor plate prevents slipping when wet

# Patented All-Wheel Drive

Standard on WBH-16EAWD

The operator can quickly change from standard drive to all wheel drive. This is ideal when used in adverse job conditions, greatly improving performance in sand, mud or loose gravel.

Hinged access door for easy maintenance

Hydraulic hoses are located within the frame for fast access and protection

Heavy duty main frame provides structural integrity with low center of gravity for increased stability and traction

Multiple hoisting points for easy loading

Unique tub design reduces splash and splatter

Fully hydraulic dump can be controlled by a hand lever or foot pedal

6" dump height — the most clearance in its class; allows the operator to maneuver over forms

Removable tires provide easy access to narrow work areas

Multiple forklift pockets provide easy loading and tiedown

Traction Control Switch momentarily engages steering drive wheel to improve traction (All-Wheel Drive models only)

Control switch allows operator to easily switch from two-wheel drive to all-wheel drive\*

Infinitely variable speed control lever allows smooth operation

High capacity fuel tank holds 5.5 gallons
